The talents of two of the world's greatest storytellers – Roald Dahl and Steven Spielberg – unite for the first time to bring Dahl's beloved classic *The BFG* to life on screen. One night, Sophie, a precocious 10-year-old orphan, leans out her window to see what the world looks like in the moonlit silence of the witching hour. Out of the

darkness comes something long and tall... very, very, tall. That something is a giant who whisks Sophie away to his home in a land far, far away. Fortunately for Sophie, he is the Big Friendly Giant (BFG) and nothing like the other inhabitants of Giant Country. Having both been on their own in the world up until now, an unexpected friendship blossoms.
